Rating	Criteria
	The Title clearly describes the strategy.
	The Competency Categories selected represent the focus of the strategy.
	The strategy can be easily adapted to any of Learning Settings selected.
	The Type of Strategy accurately identifies the strategy.
	The Learning Objectives reflect QSEN knowledge, skills, and attitudes (KSAs).
	There is at least ONE QSEN Competency objective listed in the teaching strategy objectives (pre-licensure or Graduate KSAs as appropriate).
	The Strategy Overview is clearly presented and correlated with objectives.
	The Strategy Overview relates to QSEN competency definitions.
	The Evaluation Description is clear and relates to the strategy objectives.
	The Submitted and Additional Materials are relevant to the strategy.
	The Submitted and Additional Materials are clear to the reader.

Comments for the Author

Please include any comments or suggestions you may have for the strategy author:

1. Clearer instructions on how to listen to the audio presentation. The reviewer was able to access the powerpoints but could not figure out how to listen to the presentation. Is there a link?
2. Could you include an evaluation tool you used to evaluate the project with students? Did they complete a survey or questionnaire evaluating the teaching strategy?
3. Could you include sample blog or discussion questions you used for class facilitation? This would really help someone implement the strategy right away.

Additional Internal Comments

Please include any additional comments you may have for the administrator (not to be shared with the author):

Recommendation

Please choose one of the following recommendations for this submission:

- Publish
- Publish with Revision
- Review Again After Revision
- Do Not Publish
