Dear Potential Participant,

We are conducting a survey to collect feedback regarding the adequacy of current terminal degree options for nurse educators. It includes assessment of your thoughts about current doctoral degree options for nurse educators, including content in best practices in teaching and learning, curriculum design and development related to nursing education and clinical practice, and assessment and evaluation. This survey will also serve as a needs assessment for a new practice doctorate, Doctor of Nursing Education (DNE), to fill any perceived need among nursing professionals in the United States. It will take approximately 5 minutes of your time to complete the survey.

Thank you in advance for considering sharing your valuable insights with us. The link to the survey is provided below:

Terminal Degrees for Nurse Educators

Sincerely,
