ON THE CUTTING EDGE OF HEALTHCARE

JU LAUNCHES A MASTER OF SCIENCE IN NURSING: HEALTHCARE QUALITY AND SAFETY PROGRAM

Interested in becoming a Patient Quality Officer? A Performance Improvement specialist? Or maybe the health concerns surrounding COVID-19 have piqued your interest? If so, a concentration in Healthcare Quality and Safety may be a perfect degree option for you.

Jacksonville University has recently added the Healthcare Quality and Safety concentration to its suite of Master of Science in Nursing degrees. If you are interested in learning more about this unique degree offering, please reach out to us we can discuss this program more. [Read More...](#)

FACULTY SPOTLIGHT:

**SUSAN HENDRICKSON, MHRD/OD,
RN, CPHQ, FACHE, FNAHQ**

Susan Hendrickson is bringing more than 20 years of expertise to Jacksonville University's *HQS 502* course. This course discusses Health Law, Regulatory Issues, and the Business of Healthcare Quality Improvement.

In her current role as the Division Director, Quality, Patient Safety, Performance Improvement at UF Health Jacksonville, Professor Hendrickson is responsible for providing strategic and operational leadership, and oversight for quality, performance improvement, patient safety, clinical risk management, regulatory compliance, accreditation and survey readiness, and infection prevention functions in an academic healthcare setting. She also serves as the organization's Patient Safety Officer. [Learn More...](#)
